

BUTTERFLY HANDPRINTS

Things you will need:

1. Piece of paper (big enough to fit your handprints on!)
2. Paint
3. Paintbrush or sponge to apply it with
4. Felt tip pen

What to do:

1. Using the paint brush or sponge cover the palm of your hand in paint.
2. Press your hand onto the paper with your thumb pointing towards the top of the paper (as in the picture above).
3. Wash or wipe that hand....then cover the other hand in paint.
4. Press the second hand onto the paper so that your thumb lines up with or overlaps the print of your other thumb.
5. Wash or wipe that hand.
6. Draw the butterfly's antennae coming out of the top of your thumbs.

You can use all the same colour as in the picture or you can use all different colours.

Happy Painting!
